

Movie League Guide

Your complete guide to auctions, bidding, and scoring

How It Works

Build your movie roster through monthly auctions. Movies earn points based on box office performance, critical reception, and Oscar recognition. Compete for the highest total score across the season!

AUCTION SCHEDULE & TIMELINE

Movies are auctioned **the month before** they debut. Plan ahead to secure upcoming releases!

1

End of Month

Auction opens for next month's movies

2

Bidding Period

Browse & place bids on upcoming releases

3

Auction Closes

No more bids accepted

4

Winners Assigned

Highest bidders win movies

5

Movies Release

Your movies hit theaters & earn points

Example: December's auction features January releases • February's auction features March releases

BIDDING SYSTEM

- **Minimum bid:** \$1 per movie
- Win up to **2 movies** per auction
- **Highest bid wins** the movie
- Set **priorities** if you might win 3+
- Bids are **blind** — you can't see others

Pro Tip: Use "\$1 on All" to quickly bid minimum on everything!

BUDGET MANAGEMENT

- Start with **\$1,000** for the season
- Budget **deducted** when you win
- Cannot bid more than remaining budget
- **No bids?** Auto-assigned 2 movies

\$1K

MIN BID

2

MAX WINS

TIE-BREAKING RULES

When two teams bid the same amount:

- **Lower-ranked team wins**
Helps underdogs catch up!
- **Same rank?** Random selection

Strategy: Being behind in standings gives you tie-break advantage!

SCORING FORMULA

HOW POINTS ARE CALCULATED

Final Score = Base Score + Oscar Points

Base Score = $\min(15, (\text{Domestic BO} \div \text{Theaters}) \div 1000) \times \text{Metacritic\%}$

Box Office

- Domestic gross $\div$ theater count
- **Capped at 15** max
- Must be in 5+ theaters

Metacritic

- Score from 0-100
- Used as **multiplier**
- 85% = $\times 0.85$

Oscars

- Nomination: **+0.5 pts**
- Win: **+1.0 pts**
- Best Picture: **2 $\times$ bonus**

Blockbuster Hit

\$100M domestic $\div$ 4,000 theaters = 25 $\rightarrow$ **capped at 15**

15 $\times$ 0.72 Metacritic = 10.8

Final: 10.8 pts

 **Oscar Darling**

$\$15\text{M} \div 1,500 \text{ theaters} = 10 \times 0.92 = 9.2$

+ 6 noms (3pts) + 2 wins (2pts) + BP nom (0.5pt)

Final: 14.7 pts

WINNING STRATEGIES

- **Diversify your roster**

Don't blow budget on one movie

- **Target Oscar bait**

Prestige films score big late in season

- **Watch for blockbusters**

High box office = solid base score

- **Find hidden gems**

High Metacritic + moderate BO

- **Save for late season**

Oscar contenders release late

Remember: You can add up to 2 movies per auction from TMDB if something is missing!
