

Movie League Guide

Your complete guide to auctions, bidding, and scoring

📺 HOW AUCTIONS WORK

- **Opens** - Browse movies, place bids
- **Bidding** - Modify bids anytime while open
- **Closes** - No more changes allowed
- **Resolves** - Winners assigned automatically

You can add up to 2 movies per auction from TMDB!

💰 BIDDING SYSTEM

- **Min bid: \$1** - No maximum per movie
- Win up to **2 movies** per auction
- **Highest bid wins** the movie
- Set **priorities** if you might win 3+

Use "\$1 on All" to quickly bid minimum on everything!

☆ SCORING FORMULA

Box Office = $\min(15, (\text{Domestic BO} \div \text{Theaters}) \div 1000)$

Base Score = Box Office × Metacritic (0-1)

Final = Base + Oscar Points

- **Oscar Nom:** +0.5 pts each
- **Oscar Win:** +1.0 pts each
- **Best Picture:** +0.5 nom / +1.0 win bonus

💵 BUDGET MANAGEMENT

- Start with **\$1,000** for the season
- Budget **deducted** when you win
- Cannot bid more than remaining budget

- **No bids?** Auto-assigned 2 movies @ ~\$20

Plan ahead - budget must last all auctions!

⚖️ TIE-BREAKERS

When two teams bid the same amount:

- **Lower-ranked team wins** (helps underdogs!)
- **Same rank?** Random selection

Being behind in standings gives you tie-break advantage!

💡 WINNING STRATEGIES

- **Diversify** - Don't blow budget on one movie
- **Oscar bait** - Prestige films score big late
- **Blockbusters** - High box office = base score
- **Hidden gems** - High Metacritic + moderate BO

📊 SCORE EXAMPLES

Blockbuster Hit

- \$100M domestic / 2,500 theaters = 40
- Capped at 15, × 0.85 Metacritic
- Final: **12.75 pts**

Oscar Darling

- \$10M / 1,000 theaters × 0.75 = 7.5
- + 5 noms, 2 wins, BP nom = +5 pts
- Final: **12.5 pts**
